## A SHINING EXAMPLE OF WHAT TOYOTA STANDS FOR

### • Broadway Toyota leaves TSAM environmental team floored

It was not just business as usual at Broadway Toyota Mahalapye when Toyota South Africa Motors' (TSAM) environmental team came knocking — it was a showstopper of eco-discipline and workplace safety excellence. The TSAM team has taken notice in a big way.

In a time when environmental responsibility and workplace safety are no longer optional but expected, Broadway Toyota Mahalapye is showing the way

work environment that spoke volumes about discipline, pride, and purpose. “I could eat my food right here on the floor,” one TSAM member gasped in admiration — and she meant it.

The SHE (Safety, Health and Environment) Committee at Broadway Toyota Mahalapye has been quietly but consistently working to elevate safety and eco-consciousness, not just ticking boxes but redefining the standard. The dealership's sick bay, car collection zone, and even the broom cupboards were textbook examples of what workplace order and environmental

— not with words, but with action. The dealership has stepped up on its commitment to TSAM's Safety, Health and Environmental (SHE)

programme, and their efforts have left a lasting impression on the visiting TSAM team.

From the moment the TSAM environmental team stepped inside, they were met with gleaming floors, tightly organised workstations, and a

awareness should look like. Each area they visited had its own rhythm of care and meticulousness.

The parts department didn't escape scrutiny either — and instead became the stage for constructive engagement, where TSAM officials exchanged tips and technical advice on ramping up environmental safety protocols.

By the end of the visit, smiles were hard to hide. The TSAM team left visibly moved, their impression of Broadway Toyota etched deeply — not just for the polish and order, but for the spirit that powered it all. The Broadway name, we could tell, will be forever engraved in their hearts, minds and souls.

## Shell Ultra City Mahalapye announces another Starlink Winner

The second round of the Shell Ultra City three-month giveaway concluded on a high note in April, with Mahalapye resident Moikotlhai Larona Moikotlhai walking away as the proud winner of a brand-new Starlink standard kit.

Having never won a competition before, Moikotlhai was both surprised and delighted when he received the call confirming his win. His entry came after

fuelling with just P200 at Shell Ultra City Mahalapye — a simple act that turned into a remarkable reward.

In keeping with the format of the March draw, April's winner was selected on the

final day of the month. Moikotlhai made his way to collect the prize shortly after being contacted, expressing heartfelt gratitude for the unexpected win.

The final draw for the campaign will take place at the end of May, and excitement continues to build. With one more Starlink kit up for grabs, customers are encouraged to participate — the next lucky winner could be anyone.

## Broadway Toyota cuts fleet vehicle downtime with 48-Hour service slot

Broadway Toyota Mahalapye has a game-changing move: a guaranteed 48-hour service slot for vehicles needing service. That means less waiting, less stress, and fewer memos begging other departments to borrow a spare bakkie.

"We understand how tough it is when a vehicle is out of action. Some officers end up parking cars due for service or scrambling to borrow from neighbouring departments,"

We want to take the pressure off and make life easier for fleet teams.

**"We understand how tough it is when a vehicle is out of action. Some officers end up parking cars due for service or scrambling to borrow from neighbouring departments"**

Broadway Toyota Mahalapye is ready to assist departments currently battling delayed service bookings elsewhere.

Whether you're managing a single car or a whole fleet of vehicles, this service offers hope for public and private transport officials keen to keep cars back on the road.

Broadway's service offers relief for Botswana's strained fleets; Fleet managers and transport officers across Botswana know the struggle all too well — vehicles lining up for service, backlogs stretching into next week, and no relief in sight. But one dealership is stepping up.

## A SHINING EXAMPLE OF WHAT TOYOTA STANDS FOR

continued....

Following the visit, Broadway Toyota's own management didn't waste time acknowledging their team's stellar effort. At a post-visit staff meeting, the Finance Manager - Chandima Hewage, Service Manager - Lefoko Motsopa, and HR Executive - Joseph Tamari took turns and delivered a heartfelt thank-you, promising recognition and rewards. "This is who we are," they said.

The dealership now waits for TSAM's final report — but if the visit was anything to go by, the verdict is already written in gold.

## THE NEW COROLLA CROSS FILLED WITH LIFE

### INSIDE THE NEW 2025 COROLLA CROSS

*The new corolla cross 2025 design showcases a centre grille with a gradient honeycomb pattern to give the car a modern look.*

**"Toyota's expanded the colour palette, introducing the striking Brass Gold"**

#### • A fresh face: bolder exterior

Starting with the exterior, the new centre grille features a gradient honeycomb pattern, giving the front end a sharp, modern look. It's not overly flashy, but it has just the right amount of flair to catch your eye. This isn't a reinvention—it's a thoughtful evolution.

#### • Colours that pop

Toyota's expanded the colour palette, introducing the striking

Brass Gold alongside the ever-popular Oxide Bronze. These shades aren't just colours; they're statements. Whether you want to stand out or stay understated, there's something here for every taste.

#### • Interiors that feel like an Upgrade

Step inside, and the updates are immediately noticeable. Real stitching now adorns the dashboard and console lid, replacing the artificial version from before. It's a small detail, but it makes a world of difference in the overall feel. Add to that dark brown accents on the armrests and seat backs, and you've got an interior that's warm, inviting, and undeniably premium

#### • Practical additions

The power rear door, available on the Xr and GR-S models, is a game-changer. With a simple kick under the rear bumper, the motorised tailgate opens smoothly, making loading and unloading easier than ever. It's a feature you don't realise you need until you have it.

#### • Technology that works

The tech upgrades are equally impressive. The entry-level Xi trim features an 8-inch display, but the higher Xs, Xr, and GR-S trims boast a new 10-inch display paired with six speakers. The system is intuitive and enhances the driving experience with seamless connectivity and top-notch sound quality.

## Broadway Toyota kicks off plans for its annual soccer tournament

Broadway Toyota Mahalapye is preparing for the highly anticipated return of its annual soccer tournament, an event that has, over the years, grown to become a hallmark of local sports and community engagement in the Central District.

The dealership's management has confirmed that preparations are already underway, with internal planning sessions and logistical groundwork being laid to ensure the successful return of an event that has, over the years, grown into a highlight on the local sporting calendar.

Although official dates have not yet been released, organisers say invitations to participating teams will be dispatched in the coming weeks, alongside calls to local vendors and the wider business community to secure stalls and partnerships for the duration of the tournament.

“The aim is not only to bring back competitive football, but also to create a platform where businesses, families and sports fans come together in celebration of local talent and community spirit,”

Last year's tournament, which drew large crowds and a number of promising teams, is being used as a benchmark—although the organisers say they intend to improve on every aspect of the event, from logistics and entertainment to community engagement and brand participation.
